

BACHELOR OF SCIENCE IN BIOTECHNOLOGY

SEMESTER –VI

Paper Code: BTP-606

BTP606: Project Work (Max. marks 100)

Project work may be carried out on any topic out of the syllabus. However preference should be given on Food Biotechnology and Bioremediation of water as the course was opened under Innovative Programme of the UGC on the topic “Application of Biotechnology in Food and Water Security”. Students should be encouraged to work independently, however each student should be assigned to a faculty member of the Department. At the end of the project work, each student should submit report in the form of dissertation to the Head of the Department within a dateline fixed by the Head of the Department. The dissertation should be examined and evaluated by a committee of faculty members.
